

Benchmark Vc.1.2: Design, develop and test local KidStat report content and lay out distribution methodology

Evidence of Completion: Summary analysis of finalized report and distribution methodology

The following is an example of the baseline data that was provided to counties participating in the County Data Leadership project. After further consultation, counties will identify measures for which they will receive regular reports and also the method and frequency of distribution that best fits their local project.

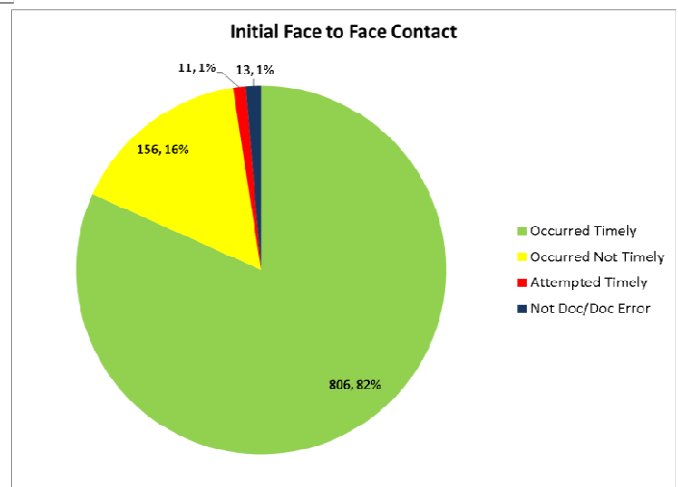

Baseline Data Rock County

January to June 2011

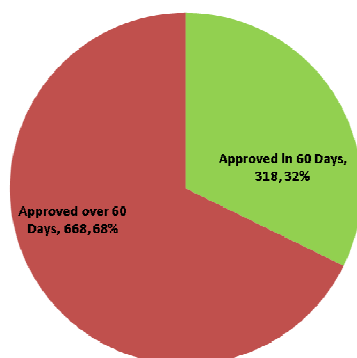

- 2,355 reports of suspected abuse/neglect were screened in the first half of 2011.
- 62% of the reports were screened as CPS reports (screened in or out).
- 68% of reports were screened within 24 hours.
- 57% of CPS reports were screened in, which is substantially the same as the national average of 55%.

- 82% compliance for the first half of 2011. This is above the statewide average of 70%.
- 13 families (1%) were not documented as having been seen for an initial face to face contact.
- Performance was best for same day response time (84%), and 5 day (83%) and then within 48 hours (78%).

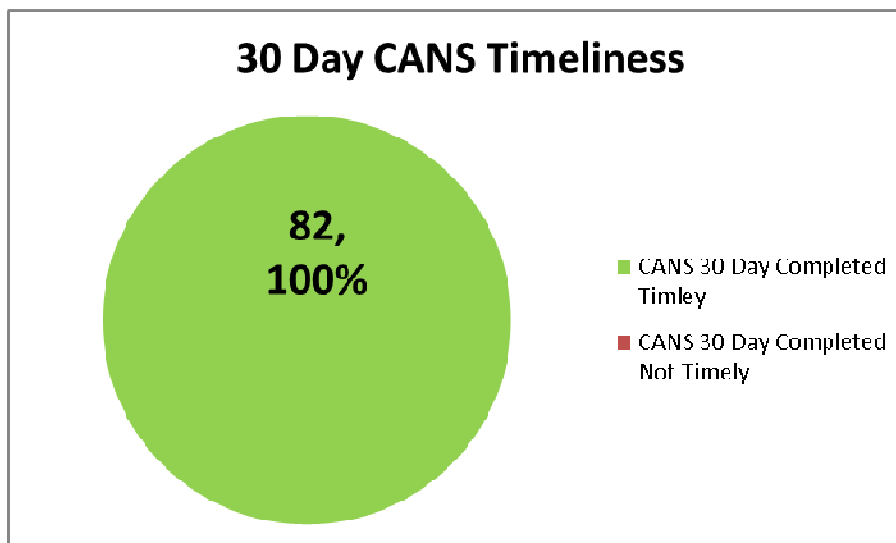

IA Approval in 60 Days

- Average of 125 days to approval.
- 26% of IAs were over 180 days old at the time of approval.
- On average it took 15 days from final submission to supervisory approval. Supervisors ranged from an average of 8 days to 23 days.

- 89% of the children in out of home care (212 out of 237) were seen each month for a caseworker visit (federal benchmark is 90%).
- 96% of contacts occurred in the child's out of home placement (benchmark is 50%).

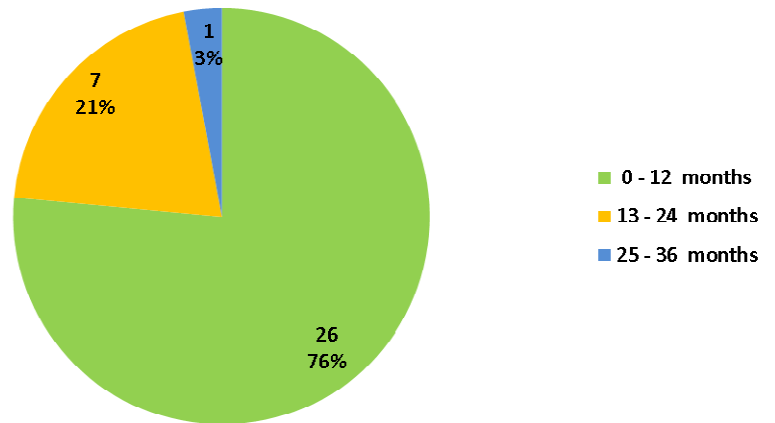

- 16 Workers have completed at least one CANS (30 day or Re-Eval).
- The average time to supervisor approval for 30-Day CANS was 2 days.

Of the 61 discharges during the reporting period, 45 were reunifications. 36 of the reunifications occurred within 12 months of removal and 8 occurred between 13 and 24 months. One was in the 37-48 month range.

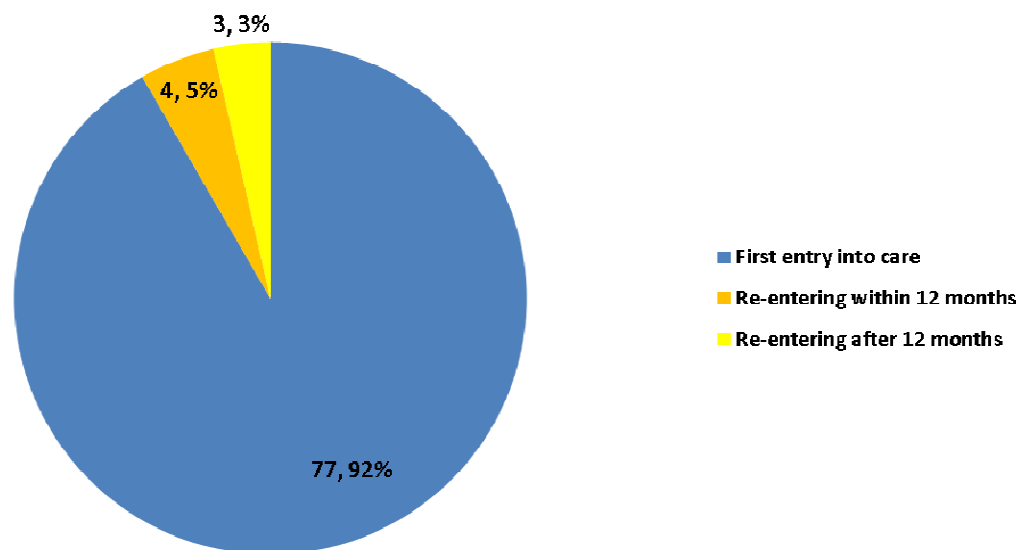

Of the 45 reunifications:

- 14 children reunified in less than one month from removal.
- 9 children reunified between two and six months.

Reunification within 12 months

Re-entry into OHC within 12 months

During the reporting period there were 7 re-entries into out of home care. During this time 77 children entered care for the first time and three re-entered after 12 months.
